

Plastic pipe cut machine

Based on small scale of production or the beginning for business,most customer will purchase same size pump one time based on MOQ,so the pipe size will be not suitable for the different size of bottles,and then this machine is necessary for them ,this is pneumatic control,and the knife is sharp enough to cut each pipe very fast.

This machine not only cut perfume pump pipe ,also can cut shampoo pump pipe ,so it is really useful.

Parameters:

Plastic Pipe cut machine
